Hi Guys - Just wanted to check in and see where we are with the sampling plan...would be great to get it posted today. Can you please let me know if we can expect to get something back today?

Thanks,
Erica

Dana S. Tulis
Acting Office Director

Dana,

Attached is the executive summary agreed to by all reviewers (OW, OAR, ATSDR). In addition there were comments on the Region 6's plan and some general comments for both plans. I am sending you these because Schatzi is out today.

Subject: QASP ES and Water Comments

Connie,

The Office of Air, ATSDR and Office of Water have concurred on the QASP ES.
[attachment "EXECUTIVE SUMMARY 52810 combined.doc" deleted by Dana Tulis/DC/USEPA/US]

Comments for Region 6

1. There is a large area of water not accounted for -- from 100 feet to 1 mile. This should be rectified. Perhaps by adding the bays and estuaries component? (page 5 and the Table on page 7 and page 8).
2. Page 13 - Section 3 - sync the sampling zones with the bays and estuaries and area between 100 feet and 1 mile.
3. The document references Appendix F and G, but they are not attached.
4. The document lists Table 3-1 but it is not included in the document.
5. Appendix D - check to make sure this is the most up -to-date. It doesn't seem to have vanadium, for example.

Comments for both Region 4 and 6

1. Recommend modification of the plans to make them suitable for posting (e.g., take out specific names and phone numbers).
2. Recommend adding the reporting limits of the methods to the Table 4-1 that includes the holding times and other information.
